CONTAGIOUS DISEASE EXAMINATION ABSOLUTELY REQUIRED (USE BLANK HEREWITH)

This may be secured through the Scout's home physician or may be secured free of charge, or with small charge, through the cooperation of certain dispensaries listed herein. The examination is made to assure the Camp authorities that any Scout or Leader suffering from, or having recently been exposed to, contagious disease is prevented from coming to Camp.

COMPLETE PHYSICAL EXAMINATION—DESIRABLE BUT NOT COMPULSORY. (USE BLANK HEREWITH). It is urged that every Scout have a thorough physical examination, in accordance with the requirements listed on the examination form herewith before coming to Camp. This is preferably done by Scout's family physician, but also may be done by the Scout or his Troop making arrangements with a local hospital clinic for this service at little or no cost. Another procedure is for a Troop to request the voluntary services of some local physician to make an examination of Scouts. This examination is intended to ascertain the physical condition of boys in order to prevent them from participating in activities that might be harmful. The Scout Leader will be guided by the examiner's recommendations, if there is any limitation of activities.
